

DYLAN REID		I am a passionate creator, whether it be through engineering software, writing novels, or producing video games. I am constantly learning new skills, which I intend to use with my out-of-the-box thinking to solve real world problems. I strive to create media and tools that will aid or entertain others. I am enthusiastic, buoyant, and optimistic, with relentless determination and ambition. I am reliable and responsible, work well in a team, and I care deeply about others. I aim to work towards a green and progressive future.	
Software Engineer		- Cell: (+27) 083 703 7502 - Email: ddylanreid@gmail.com - LinkedIn: http://www.linkedin.com/in/dylan-james-reid - Portfolio: https://thealgormortis.github.io/home - GitHub: https://github.com/TheAlgorMortis	
Education		Work Experience	
Current: BSc(Hons) Computer Science - Stellenbosch University BSc Computer Science (cum laude) - Stellenbosch University 81.625% average in 3rd year NSC (Maths, IT, Physics, Life Sciences) - Fairmont High School 88.4% Average for Matric		CS Project Co-ordinator (2026) - Created the specification for the first year computer science project, implemented the reference implementation and marking scripts. Will be responsible for marking in the second semester. Machine Learning Teaching assistant (2026) - Helping students during weekly tutorials. Invigilating assignment tests and exams.	
Tech Skills		Projects & Achievements [Full list available on my portfolio website]	
Programming - Python (Numpy, Matplotlib, sklearn, etc) - Web development (JS, Node, React, Express, CSS, HTML, REST APIs, databases) - Java, C, C#, Haskell Tooling & Methodologies - Git, CI/CD, Agile Technical Writing - Latex - Formal Specifications Game Development - Godot (limited proficiency) LLMs as a tool / prompting		Little Explorers Website (Frontend, 2026) - I developed and deployed an informational website for Little Explorers Aftercare and Preschool, my mother's business. Hackathon Winner (Full-stack, 2025) - Winner of the 2025 SU developer society hackathon where my teammate and I built a full-stack module review and advice system. - Also a finalist in the standard back data science hackathon in 2023.
